

CONSULTING WITH RESULTS.

InterDyn - CFO Consulting established the popular casual Friday policy several years ago. Employees who made a small financial contribution were permitted to wear blue jeans on Friday. This policy has been great for employee morale with a casual day in the office and the opportunity to help families in our community.

In past years the team submitted suggestions of how/where to donate the Blue Jeans Friday funds. We have made donations to support our troops, the LAM Association and numerous families at Christmas. Adopting one or two families at Christmas is our team's favorite use of the funds.

In keeping up with tradition, this year we were able to provide help to two families for Christmas, one from United Cerebral Palsy and the other from Cornerstone Hospice. Both United Cerebral Palsy of Central Florida and Cornerstone Hospice are clients of InterDyn - CFO Consulting. We are proud to work with our clients in this manner.

"We really wanted to make a difference, we realize how fortunate we all are and at this time of year, our entire company worked hard all year saving to make a special family happy and provide some holiday relief. I am proud of our employees for this charitable act of kindness" says Steve Lublin, Owner of InterDyn - CFO Consulting.
